J182 MK Sofa

Designed by Mogens Koch

In 2023, it will be 125 years since Danish architect, professor, and furniture designer Mogens Koch was born. In that connection, FDB Møbler is now launching a very special 3-seater sofa in close collaboration with Mogens Koch Design.

The J182 sofa is a high-quality sofa that combines all the best from two of Mogens Koch's previous designs. One of the sofas was designed in 1937 as a commission for a wholesaler and only made in that one example. The other sofa was designed for the manor house "Gammel Kjøgegaard", located south of Copenhagen, near Køge, but the sketches were never brought to life.

One of the characteristics of Mogens Koch's upholstered furniture is that the frame is made as an independent construction – with frame and chair always being clearly and separately defined.

Koch didn't like the idea of the legs of the furniture emerging straight out of the upholstery, because the blind frame is often of a different type and quality of wood.

B100 – Sorø Shelf

Designed by Laura Bilde 2023

By combining solid oak and a very straightforward design approach with simple and immediate constructions, the designer has created the iconic details of the Sorø Shelf.

Sorø is made by Laura Bilde, one of our newest designers at FDB Møbler. The shelf works fine on its own, but due to the simple design and construction, you can also group more of them together to create large, flexible shelving systems.

U11 - U12 Sletterhage lamp

Designed by Laura Bilde 2023

The Sletterhage Lighting Collection is named after an iconic Danish lighthouse. For decades Sletterhage Lighthouse has been lighting up the area, helping fishermen, locals, and tourists navigate the beautiful cape of Helgenæs, located exactly in the middle of Denmark.

Inspired by the many industrial elements in the lighthouse, the design is made of rifled glass in a transparent construction. By using the same glass components in varying ways, Danish designer Laura Bilde has created a close-knit family of lamps.

U13 – Hasmark lamp

Designed by Rikke Frost 2023

The Hasmark Lamp consists of many thin lines that come together to form a beautiful shape, much like an onion, which served as inspiration for both the shape and name.

The textile creates a pleasant, diffused light, and the lamp will bring a cosy ambience to any room. Combining the soft textiles with a black metal frame adds tactility and contrast to the design and when lit, the Hasmark Lamp will reveal a more detailed, graphical expression. The name stems from of the finest Danish onion producers, a farm called Hasmark Vestergaard.
