Furniture that makes room for people

Furniture ought to make room for people. That has been our philosophy since 1942, when FDB Møbler was founded, with architect Børge Mogensen heading up the studio. Many new designers have since entered the fold, but the foundational principles remain the same: To create beautiful, functional and exceptionally crafted furniture that makes room for everyday living at home. And that can withstand everyday wear and tear to age gracefully with those who use them.

FDB Møbler is internationally known as a frontrunner of Danish design. It's a story of classic pieces to be passed down from generation to generation. In fact, every new piece of FDB Møbler is born as an heirloom. The values that FDB Møbler was founded upon continue to shape every piece of oak and beech. They are woven into the seats and are upheld in each design, both when our ever popular classics are reissued from our design archives, and when we launch brand new designs.

Regardless of whether we are talking about iconic pieces from FDB Møbler's classic collections or new, innovative designs, the goal is the same: To have the veritable quality of life that was envisioned when the first pieces of furniture emerged from our studio in 1942.

“Responsibility is FDB Møbler’s cornerstone—it’s the starting point for everything we do.”

As Børge Mogensen said, “Furniture must serve people.” With that in mind, everything from FDB Møbler is designed to last a lifetime. Our fundamental design concept cuts right to the bone: no superfluous embellishment to diminish the beauty of simplicity, no trendiness to detract from true timelessness. In short, honest design and solid craftsmanship 360 degrees around, so that even the undersides of our tables and chairs have nothing to hide. Behind every FDB Møbler product is a designer dedicated to creating value for people, both here and now and in the future.

THE NORDIC SWAN ECOLABEL

The official Nordic ecolabel is one of the world's most stringent environmental certifications. Today, several items in our furniture range, including all chairs and tables designed for children, carry the Nordic Swan Ecolabel. Our next goal is for all furniture from FDB Møbler to be certified, whenever possible, with the Nordic Swan Ecolabel.

10-YEAR GUARANTEE

The quality materials and solid craftsmanship of FDB Møbler are an iconic part of Danish design. Since 1942, when FDB Møbler was founded with architect Børge Mogensen as creative director, we have produced high quality and solid craftsmanship at reasonable prices. We have extended our furniture guarantee and now offer a 10-year guarantee on all furniture products. The furniture guarantee does not apply to garden furniture, lamps, home accessories, or home textiles.

CARBON FOOTPRINT

We are committed to ensuring transparency regarding the carbon footprint of our products. We see it as our responsibility to reduce the carbon footprint of our furniture, and we want to contribute to drive meaningful changes in this respect.

FSC®

FSC is the world's most ambitious global certification for responsible forest management, promoting responsible forestry to allow forests and people to thrive. Our furniture is made from FSC® certified wood (FSC®-C164841). We take care of the forests where trees are harvested, and we do not take from nature without giving something back.

DURABILITY & TESTING

Even if you are the first owner of a new piece of furniture from FDB Møbler, you are unlikely to be the last person to use it – because everything from design to materials and construction is made to last for generations. A quality piece of furniture requires solid construction, quality materials, and the right design. To ensure that we deliver on all three parameters, testing at the Danish Technological Institute is an integral part of product development at FDB Møbler.

MAINTENANCE

Extend the lifespan of your furniture by carefully following the maintenance guides. When solid wood furniture is exposed to the sun and properly treated, the wood will develop a beautiful patina over time. As wood is a natural material, colour variations and markings may occur.

Dining chairs

“When making furniture, you really need to take production, demand, and price into account, but sometimes I simply draw pieces that I would like to look at and sit in”

Designed for people – by people

When FDB Møbler's creative studio was founded in 1942, it was an act of rebellion against the status quo. The goal was to design beautiful, functional furniture not just for the wealthy, but for the common man. The designs railed against the heavy, uncomfortable furniture of the day by paying tribute to and making room for everyday living – and all life has to offer. Each of the architects and furniture designers who have been involved with FDB Møbler's production has a unique story.

On the following pages, we present their stories and the entire range of FDB Møbler, from the traditions of the past to the designs of the future. Explore, discover and enjoy our ever-evolving world of designs and designers.

1942

FDB Møbler was born and Børge Mogensen appointed as Creative Manager.

1942

From the beginning of the 1940s, Børge Mogensen continued Kaare Klint's approach to furniture design based on the dimensions of people, objects and furniture.

1944

The first collection was presented – "By the people, for the people".

1947

The first furniture was produced in Njalsgade in Copenhagen. In 1947 FDB bought Tarm Chairs and Furniture Factory. The factory employed 50 carpenters and produced 10,000 chairs in one year.

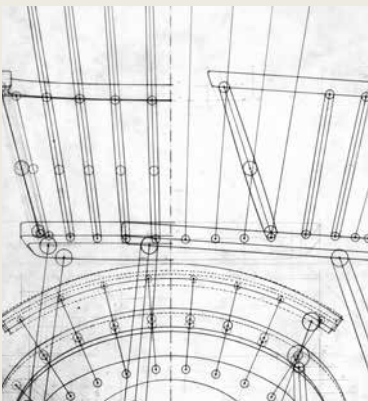

1950's & 1960's

With more than 2,000 selling points in Denmark, FDB Møbler was the biggest furniture company in Denmark.

1967

The creative studio was closed, with Jørgen Bækmark as the last Creative Manager.

1980

In 1980 the factory in Tarm was sold, and the last piece of furniture was produced. All design rights were given back to the furniture architects.

2013

COOP (formerly FDB) relaunched FDB Møbler in Denmark with a restart of the old classics, which instantly became a success.

2019

FDB Møbler has set out to be Denmark's most responsible furniture company. And in 2019 the J46 chair received the Nordic SWAN certification as the first piece of furniture.
