REFERENCES & INSPIRATION FROM PROJECTS

FRONT PAGE: CALEO WHITE · DESIGN: RIKKE FROST

FOREWORD

I have always been fascinated with light in its many forms. I am constantly amazed at the ability of pure natural light's power, to enhance or deplete nature's beauty. On occasion, I have questioned, how can it get us to simultaneously, think about colour texture and shade, while interacting with our senses and affecting our moods.

It is always a great sense of professional achievement, when we have mastered the understanding of using light, by finalizing yet another perfect LE KLINT model and incorporate it into our wide selection of handmade designs.

Our team of highly skilled technicians, collaborates with innovative designers and architects to guarantee each sustainable model is completed to perfection with the possibility to be recycled repaired and re-used, for generations to come

As you glance through the pages of this exciting catalogue, we hope that you will find the perfect inspirational lighting for your upcoming projects.

Best Regards

LE KLINT
